

Carisma

A

Consistent in-the-cup quality

Dedicated to all those espresso lovers who want to have a real coffee machine at home and to those premises where the daily production is not enough as to require the installation of a larger and of higher performance machine.
Attractive design in vintage style

QUICKSTEAM

The Quicksteam technology allows frothing or warming milk directly into the pot at the simple touch of a button. The Quicksteam system is characterized by an interchangeable terminal which, in a specific version, makes it possible to froth milk directly into the single cup. (Optional)

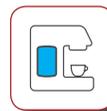

Single dose filter holder: it can also work with ESE pods thanks to an adapter supplied with the machine

Excellent in-the-cup quality of both coffee and milk based beverages.

Single dose filter holder: it can be equipped with an adapter that allows the use of open system (FAP) capsules. (Optional)

Water tank, equipped with a water softener, which makes the machine completely independent and able to function even in those cases when it is not possible a direct connection to the water mains.

Gruppo Cimbali is committed to reducing environmental impact via the use of recyclable materials. The use of raw materials such as copper, brass, iron, aluminium and steel makes our equipment easy to recycle. The plastics used are eco-friendly and all the equipment complies with the RoHS directive. Gruppo Cimbali is one of the founder members of a consortium with the specific objective of recovering equipment at the end of its working life in compliance with the RAEE directive.
